# MESSAGE FROM THE FOUNDER

I am humbled by the fact that Chandrans Yuva Foundation has completed one year as an organization. We, with the help of number of volunteers, kind hearts and souls in and around Coimbatore have helped immensely in the contribution of the valuable services to the people who were focused closely in our initiatives and programs. It could not have been possible without the support of Team Chandrans Yuva for the execution of the initiatives, Food 4 Needy, Invisible Kaleidoscope, Wagon of Care, Disgenderable. Today Chandrans Yuva Foundation has been able to provide skill development training for people which in turn effects positively on the lives of their families for their development. Our initiatives have been cultivating employment skills for the special people.

Our initiatives have been starting to reach new heights and reach more people effectively on the basis of both skill development and society welfare. With the development of our initiative, Disgenderable it is possible for the Specially skilled people and Women to become empowered for the support of their family.

We look forward to sustaining and improving upon the growth by supporting and elevating the needy to create an atmosphere for them to achieve their personal and family goals.

"See More, Hear More, because, we are ready to come out with a lot more." - FOUNDER

Thank You for your continued support.

C Sivanesan  
Founder - Managing Trustee

**FOUNDER**

## Vision Statement

To make the world ideal for everyone by extending the basic needs for a being – Food, Clothing, Shelter, Education, Healthcare.

## Mission Statement

To empower all the sections of the society through imparting awareness and teaching through serving, educating, providing necessities and requisites with care and comfort.

# OBJECTIVES

## FOOD

To establish a systematic network in order to serve for the people who are in difficult access to food.

## CLOTHING

To motivate and educate people who are visually under-privileged in the field of self- improvement and cloth designing.

## SHELTER

To develop group of leisure centres with facilities and care for Senior Citizens by engaging them to spare time activities.

## EDUCATION

To maintain a dedicated team of teachers to guide the mentally challenged in basic education and life skills.

## HEALTHCARE

To create awareness on the healthcare schemes and encourage the people in the importance of organ donation.

# FOOD 4 NEEDY

## WHY FOOD?

Food is the first and foremost necessity of a living being which is necessary for proper day to day living of a human being. Every individual must have at least . Almost 20 crore people in India go hungry every day. This is prevailing even with the high quantity of food sources available. Many people could not get in reach with those sources at various circumstances and do not have an easy access to them.

## WHO TO PROVIDE?

In Hospitals, the patients will be accompanied by their close one, relatives, and friends. The day to day care of the patients will be taken care by the hospitals with their doctors and nurses. And the By-Standers who plan for their stay with their loved ones would have come prepared for a certain number of days. But due to unavoidable circumstances they would have been staying for additional number days. During this situation many would be facing troubles in circulating the amount of money they have for stay, travel, medicine etc. If food is provided for them, then it would reduce their burden, financially to a certain extent also providing a healthy complete meal, a stress-free and straight access.

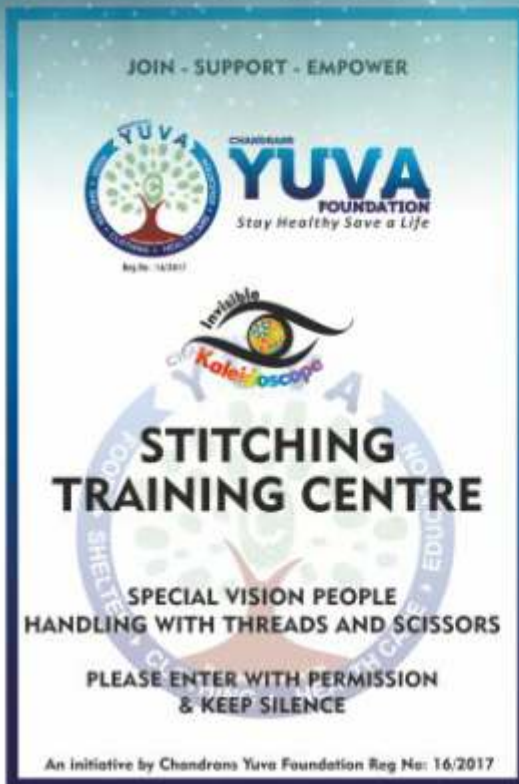

## HOW PEOPLE ARE BENEFITTED?

The food packets provided to the by-standers during the lunch hours are highly beneficial for them, with the supply of the packets at free of cost. The people are highly benefitted from this initiative and the patients who are provided with bread packets (especially in the labour ward) find these programmes highly helpful. This Chandrans Yuva Foundation's initiative makes this probable by getting supply of food nearby and accessible to these people. This will make sure that that their works doesn't get affected and they can get a meal in their busy time. This is happening on a day-to-day basis which can be easily organized by bringing the access to them directly. This is the core belief ChandransYuva Foundation, to bring people who are in need of a meal, a stress-free and straight access.

## INVISIBLE KALEIDOSCOPE

It is definitely hard to see kids and women in rags along the roadsides. In a well cultured society as ours, clothing has become an essential. Clothing is nothing but stitches and colors. A few stitches along the edges on a piece of cloth and some printing or coloring material will bring out a perfect wearable for anyone. At this point, we have look through the situations faced by a visually challenged person. The privileges received by them will give them an entirely different view on these stitches and colors of clothing. has set up special facilities and care under its initiative to motivate and bringing out the hidden talents and training the visually under-privileged people in the field of basic designing. decided to make a solid and collaborative bridge between the colors of clothing and colors of the visually under-privileged. Those special people, they are capable to see a different spectrum of colors, which cannot be seen through any other pair of eyes.

With the continued determination and hard-work, the hardships the people went through in bringing out the colorful outputs which are been displayed in various social platforms. With the continuous training taken by them, they were able to produce outstanding results and they are continuing the same.

The platforms are provided and the colorful threads are brought out to display to the world. This makes the training the underwent to come fruitful and bring out a brand new exposure for them. This makes way for them to destroy the struggles in their heart and build up new visions and thoughts.

# NECESSITIES DONATION BOX

## WHY NECESSITIES DONATION BOX?

The specially built boxes are capable of containing used clothes, apparels and footwear which can be used by another set of people who find themselves unavailable with one of these basic important necessities - Clothing. These Necessities Donation Boxes serve as a direct supply link between the great hearts of the city with the tribal and the highly remote areas. The necessities donation boxes are made of sturdy material where people are free to contribute any used necessities such as clothes, books, stationeries etc., which can be used usefully by countless people living around us.

## HOW NECESSITIES DONATION BOXES WORK?

The collected necessities donations are trucked towards tribal villages, remote areas, where there is necessity of these contributions by the people. The materials useful for them are loaded fully on the Wagon of Care (an initiative by Chandrans Yuva Foundation) and are deployed to habited places but needing the necessities. The Wagon of Care provides the people with a new and fresh experience of receiving the gifts.

## WHAT NECESSITIES AND HOW CAN BE DONATED?

Any necessity (such as clothing, apparels, stationeries, books, notes which is used, and if it can be useful for other people can be donated in the necessities donation box. The necessities Donation Boxes are affixed in several places around the city.

- ▶ Rathinam Campus, Eachanari
- ▶ Innovspace, Kalappati
- ▶ Royal Skyline Apartments, Trichy Road
- ▶ Royal Sheraton Apartments, Nanjundapuram
- ▶ Government College of Technology, Thadagam Road
- ▶ Rayz Cakes, Podanur

Sincere Thanks to  
**tasiya**  
For the Women - By the Women

## WHY SANITARY NAPKIN VENDING MACHINES?

These Sanitary Napkin Vending Machines offer reliable assistance to the women who in the emergency need to attend to their menstruation periods when they are away from their home or residences. By far, with comparison to the different modes of sanitation for women, sanitary napkins are considered to be hygienic and easy mode. .

## LIFESTYLE CHANGES OF WOMEN & ATTENDING EMERGENCIES

In the day to day busy environment, the lifestyle of everyone has gone through a drastic change in order to adapt to the current scenario. Especially women, now, are facing a challenging lifestyle with respect to the amount of work input they are doing to their daily life, families, career and personal issues. This change has brought forward lot of challenges in day to day life. One of such challenges is travelling. The travelling involves emergency travels, official travels, and personal travels by using the public transport services in and around the city. This needs the women to spend most of their time daily outside their home or residence. Therefore there are possibilities for getting their menstruation period anytime when they are in the public or at work. In order to attend themselves in these possibilities, the women felt that they would feel more comfortable when there is a facility provided for them to get sanitary napkins easily in public places. Sanitary Napkin Vending Machines will be easy to access for women without any assistance and they can attend themselves without any troubles.

## HOW WERE THEY SETUP?

Sanitary Napkin Vending machines were setup throughout the city in major bus stands, Gandhipuram Town Bus Stand, Singanallur Bus Stand, Ukkadam Bus Stand and Mettupalayam Road New Bus Stand. Additionally two Sanitary Napkin Vending Machines were setup in Coimbatore Medical College and Hospital premises (in the labour wing and nurses quarters). Premises on account of World Women's Day.

## HOW WERE THEY SETUP?

The inauguration of these machines were done by Mr.Periahah, The Commissioner of Police - Coimbatore City, Mr.Vijayakarthiskeyan - The Corporation Commissioner - Coimbatore District, Dr.Asokan -The Dean - Coimbatore Medical College and Hospital. And also with the support of Mrs. Sheril Philip - Social Welfare Department Officer, Dr.Soundaravel - Regional Medical Officer. The inauguration programme was held in the Government Medical College Hospital Premises on account of World Women's Day.

## ABOUT FEMMES-VEND

The Sanitary Napkin vending machines are made of Sturdy Durable Stainless Steel material which contains the sanitary napkins stacked inside and allows the user to drop Rs.5 in coins to dispense themselves with a Sanitary Napkin. For their convenience, the machines are setup inside/near the ladies Restroom premises in the public.

## HOW THE WOMEN ARE GETTING BENEFITTED?

Sanitary Napkins are available easily 24x7 in the public places where there are high footfalls of women. The easiest mode of sanitation is available at a lower cost comparatively in emergency situations.Women can attend to their needs by themselves.

## WHAT IS THE FUTURE OF FEMMES-VEND?

The emergencies are faced by women not only in the public transport places; there are very much high possibilities for them during Train Travels, Schools/Colleges, during Office Hours etc. Therefore, in the future the Femmes-Vend can be expanded to various regions where there is high footfalls of women and emergency situations faced by them.

# OUR INITIATIVES IN 2017

# WAGON OF CARE

## WHY WAGON OF CARE?

The necessities gathered from the residential areas, apartments, IT centers, Colleges need a medium to reach the needy. The located needy by Chandrans Yuva Foundation are not easily reachable by the outside world. There are people who are living in the dense forests, in the settlements made on the hill tops among the vegetation and animals surrounded. In order to reach to the people living in such locations, we need a durable and reliable mode. There comes the 'Wagon of Care'. A wardrobe made like container which carries all the necessities, mainly clothes to the needy is attached to a heavy duty truck which makes the necessities reach the needy in a convenient fashion., which cannot be seen through any other pair of eyes.

## THE EXPERIENCE

With the Wagon of Care, the villages/settlements which are secluded from the city/town premises are been exposed to an experience like never before, a retail shopping like setup where the people are allowed to enter the container and take their necessities for their liking with the help of the attached mirrors. This incredibly new experience brought forward helps the

## WAGON OF CARE

Bringing the Experience of a Retail Store to the people in the neighbourhood which are in dense and deep forests, remote locations situated away from the city. The people found this experience new and fresh, this could give them a opportunity to cherish for the children and their families. All people were provided with an opportunity to take away their favorite choice of colors from the 'Wagon of Care'. Wagon of Care continues to travel with Love.

**"There are not Dis-Abled  
people, There are only  
Differently Abled People"**

**-FOUNDER**

## DIFFERENTLY ABLED PEOPLE

There has been a strong belief in our world that, physically challenged people can do only certain works and can cultivate only limited amount of talents. But in Chandrans Yuva Foundation, we do not consider anything as a disability, but we identify it as a different ability and help them to develop their skills in the particular fields.

## BAKERY PRACTICES TRAINING

In Chandrans Yuva Foundation, everything small done for the beneficiaries will have a larger scope for them to capitalize on. The differently abled people who are associated with our Chandrans Yuva are been trained in actual bakery setups, where are been taught to make bakery products including pastries, chocolates, packaging and other necessary exercises.

## WHY BAKING?

Baking is considered as a professional occupation which is prevalent widely throughout the world. The market for the baking industry is always increasing or steady. With the cultivation of knowledge in such a diverse and efficient industry, the differently abled people will be exposed to a wide range of opportunities which will be available for them to take grabs.

## WHAT MORE?

Chandrans Yuva Foundation can back them by assisting them and propelling them in the competitive world with the sufficient talents and practices to handle a full-fledged bakery setup on their own.

*Disgenderable*

## BAKERY PRACTICES TRAINING CENTRE

**FSSAI CERTIFICATION**

The specially abled people are been trained in accredited kitchen setup which is provided with an FSSAI certified kitchen unit. The people are been exposed to the current trends in the baking industry, which they will benefit from by getting trained in those specific fields of baking. The accreditation speaks a lot about the quality of products produced by the differently abled people.

## VILLAGE AWARENESS PROGRAMMES

With all the developments happening around the world, it is necessary for us, as people to keep all the segments of our society to keep them well informed about the happenings around. The healthcare awareness, educational awareness, and recreation awareness are highly required for our children. The awareness programmes concentrated on the public welfare in those villages including the students, children, women, senior citizens who need the required exposure into the outer world.

These society welfare programmes were conducted in

- ▶ Marudhamalai Primary School
- ▶ Dhumanoor - Sembakurai High School
- ▶ Nedunkundram - Valparai

*Medical awareness camps, reaching out to the remote and the needful areas around Coimbatore*

## HEALTH AWARENESS – IMPORTANCE

The most essential necessity of a human being which the world is running towards, but struggling to keep under control is Healthcare. There are 2 sets of people, who know about their health condition and take corrective actions accordingly and then there are people who are completely unaware of their situation, not because of negligence but because of unawareness. In order to make those people aware of the happenings and the medical conditions, camps and checkups were conducted on places where it require medical attention.

## ACTION TO MEDICAL REACTION

We had invited few doctors to join with us on this initiative and they eagerly joint us to help the people in need. Yuva was reaching the places where even basic medical needs are rare and organized Healthcare camps providing free checkup and medicines for the people. General Health checkups to diagnose reason for body pain, headache, and any other troubles that could be cured in a medical camp were treated.

## PLACES

The Places where medical camps were organized and conducted are, Periyakavundanoor Peelamedu, Nedunkundram, Valparai

The main necessity, Healthcare for the people will be reaching all the people, in every nook and corner of our society only when there is a scope of cost less healthcare. The main problem for negligence of people in their health management is because of the cost issues which are directly incurring on them for the maintenance. In order to make the medical care readily available for the needy, Cost-free or Cost-Less medicine is required. The central Government of India has been providing Cost less medicine for all, through their notable and welfare initiative, Pradhan Mantri Jan Ayushadhi Scheme. This has been a authentic and valuable addition to the medical welfare schemes. Chandrans Yuva Foundation feels privileged to become a part of this valuable scheme for the people.

## MIND GEAR

The rise of unemployment is a major problem in the current day scenario. The people have to be trained up in specific skills which will co-ordinate with their talents so that they can adapt themselves to the atmosphere better. This adaption to the skill atmosphere will bring out the best in the people. The Community College Training centers will focus majorly on the skills development of students, people, in the way the world wants them to be. Children nowadays prefer to be indoors for their day to day activities and programs. The amount of children who are willing to go outdoors and get them involved in playing outdoor sports are getting reduced. The Children nowadays are in the requirement to build themselves a wide range of skills to sustain in the future. The children have to be exposed to those skills at the very beginning itself. And the bottom line is the children have to more work out both physically and mentally.

In order to make them charged up, they have to be more energetic and so it is required for them to get engaged in outdoor sports which will keep their energies boosted and also will make sure they develop a lot of potential, team work, hard work.

# INDIVIDUAL SOCIAL RESPONSIBILITY

## INDIVIDUAL SOCIAL RESPONSIBILITY

Society is the place/home which we live in. Responsibility is something we will ought to have on anything we own. Individuality comes in place when we try to fulfil our personality. When combining the 3 characteristics, Individual Social Responsibility falls into place. The ISR is what Chandrans Yuva Foundation motivates within the Individuals, which in turn affects the HOME we live in a dramatic positive way.
